April 2014

PJ2 CQWW CW

By Mike Dinkelman – N7WA

April WWDXC Meeting

Now only \$20, including Tax and Tip!

Robb's 125th Street Bar and Grill
North 125th Street and Aurora Avenue North

Please RSVP your dinner plans to Adam, K7EDX k7edx@arrl.net

April 8, 2014
Dinner at 6:30 - Program at 7:30

***Totem Tabloid* Editor Retiring!**

By Jack Fleming, WAØRJY

In what seems like it must be an April Fools issue joke, but isn't, I'll be retiring from the helm of the *Totem Tabloid*. This is my last issue.

The *Tabloid* will join the modern world and be updated to an online version located on the club's website that will include more up-to-date and timely information rather than a monthly schedule. The new editor will be Kip Edwards, W6SZN.

I'd like to thank all the folks that have helped with articles and ideas over the past 25 years (or however long it's been). In random order some that come to mind include *Tabloid* Editor Emeritus Jim Hadlock, K7WA, Mike Dinkelman, N7WA, Ward Silver, NØAX, Bob Brown, NM7M(sk), and (put your name here if I've forgotten to mention you) . Plus all the great officers of the WWDXC who step up and give their time and efforts to keep the club functioning. Thanks everybody!

73! Jack, WAØRJY, *Tabloid* Editor Emeritus

DX Info Sources

John Owens - N7TK (jcowens1@comcast.net)

Now that the DXCC LADDER is now listed in the monthly Totem, that leaves the task of knowing which DX operations are going to be on the air, and how to get a QSL card or LOTW confirmation if you work them. I have provided a list of a number of very useful websites below that provide information to solve this problem. If you have others that you think should be on this list, please email them to me at jcowens1@comcast.net and I will try and include them in upcoming postings.

ARRL DX SSB Soapbox

K7EG

Casual effort. Least favorite mode. Hope modest effort helps toward trophy [everything helps - dink]

K7HBN

I am not a big fan of phone contests, but this one was interesting due to the contrast in propagation from Saturday to Sunday. Almost like night and day on 10 meters. too much work for QRP, but still fun. Just turned 70, so should be able to claim senility for even starting this one.

W1AW/7(K7RL)

This is a checklog and an ARRL Centennial log only, even though I operated it as a regular contest. I had a blast piloting W1AW/7 this weekend and during my time slots during the week. We had a hard working crew of great operators spread out around the state handing out WA in many different modes and bands. As our first week comes to a close, I hope everyone that needed/wanted to work us, did. If not, you'll get another chance in November.

As for the contest, bands conditions were interesting. I'll keep this short:

10m The money band!!

15m Good, but not great. Signals from EU seemed attenuated.

20m During the day - where is everyone? At night - I love this band!

40m Steady and productive.

80m Noisy and generally lackluster.

160m Why bother

Thanks to everyone for the Qs.

W7QN

Used mobile whip antennas all bands.

KZ1W

10m was smoking hot, so I concentrated there, the band opened to Europe Sunday

at 6:30am. About 21 hours on the air, all S&P except for a couple of JA runs.

About the same hours and score as last year with 20 and 10 results reversed.

NW7D

Enjoyed some really incredible conditions, 10 meters was simply outstanding

and a joy to operate and where I spent the majority of my time. I'm more of a RTTY guy but enjoyed this

contest, even worked some JA's on 80 meters early this morning, something new for me Surprised to work a few QRP stations from Asia on 10 meters as well.

K7CW

People might have thought I'd have more sense than to enter as single band 160 SSB with only a low inverted-Vee and 500 watts. Old age must be taking its toll. Friday night provided most of my contacts. Saturday night had essentially a dead band at my house. About 0400 PJ2T came way up to S-9 and a couple of W6s got him, but then he worked a bunch of guys back east and the band quickly went out - all the way out. I managed to work KH6LC and XE2X on Friday. Best DX was to HK1NA. Worked KH6 stations and the rest in XE and Caribbean. Never heard a KL7.

W7OM

Low power kept the neighbors happy but made getting 20 meter multipliers really tough this year. Compared to 2013 ten meters was where the numbers were and 20 was tough. The twenty meter band had weaker signals and bigger piles. Was going to stop and 400 Qs but thought I might as well go for 300,000+ points. SSB is not my mode of choice. But ten was fun.

N5CR

I don't think I'll ever experience better 10M conditions during a contest! And it was nice to be able to sleep normally!

N7GCO

Had a great time in the contest. It was my best scores yet. Loved 10 meters

Membership

By Jim Hadlock K7WA

*I*t was great to see so many members at the Mike & Key ARC Fleamarket in Puyallup on March 8th. It was especially gratifying to see those who have suffered some health issues recently on the road to recovery. Rob KD7H shared a slide show of the Johnny Dack W7KH QSLs that he scanned, and Adam K7EDX, Mike K7SR, Denny W7SNH, Kirk N7UK, Pat W7GTO, and Walt K7ZQ helped keep the information table active through the day.

Thanks to those who took the opportunity to renew their membership, especially long-time members Clay K7CR and Randy W7HR.

Some upcoming dates to keep in mind: SeaPac (Seaside, OR) on June 6, 7, and 8, and the Pacific Northwest DX Convention (sponsored by the ORCA DX and Contest Club) July 25, 26, and 27.

Need to sell: IC-756PROII + PS + SM-8 MIKE. \$900 obo
Thanks - 73 - Jon Zabel - K7ZA - 425-432-9838

Antenna project supplies: Various lengths and diameter aluminum available to help with that antenna project you've been wanting to do. I have a few 10ft lengths of 3" available and a boom from a KT34. Smaller pieces also available. There is also a couple partial spools of 1/2 CATV hardline. No reasonable offers refused but you gotta come up to beautiful Whidbey Island to get it. :) Call Greg at 360-320-3436 or email at ab7r at cablespeed dot com

I'm looking for **5 Rohn 25G or 45G tower sections**. If you know of any members who would be interested in selling their extra sections, I would appreciate them contacting me via my email address or by phone at 360-383-0521. I'm willing to pick them up. Thank you very much for your help! 73, John Hofstrand, KF7PG

Sell or swap my island property in Australia for one in USA?

It is a separate IOTA [OC-137] from Australia but only 20-min by ferry from the mainland (between Brisbane and the Gold Coast of Surfers Paradise).

1/4 acre corner block on the SW corner of Russell Island. Comprising a Chalet, a cottage, 2-car garage, shipping container converted to a ham shack, 60' tilt-over heavy duty tower with 9-el quad-yagi, R7000 vertical. There are no homes on the boundaries. Catch delicious mud crabs, shrimp, perch only a few hundred feet from the house. Watch all the yachts sail past while enjoying a drink on the verandah at sunset. Included are 2 cars, 2 boats, a travel trailer, all furnishings and appliances. Low rates. Tower friendly council and ham friendly neighbors. Hourly passenger ferry to mainland from other end of the island. 6-8 vehicle ferries a day. Village has a supermarket, chemist/drug-store, hair salon, bakery, hardware store, post office, police station, ambulance station, doctors, medical lab, public pool, helicopter pad, parks, cafe's and some other small businesses... sports club with poker machines,bar and restaurant... retired servicemen's club with the same. Climate is semi-tropical year-round. Cottage is tenanted for income (\$1000/mo). Good cellphone and broadband wireless service. RF quiet. The road is paved all the way from the village to the property.

It would make an ideal DX/Contesting/Holiday QTH, or even advertize the cottage as a Rent-a-shack while living in the chalet, or...?

Note: It is very easy for non-Australians to own property in Australia, and easy to get long-term Visa's. I am 'open' as to what type of property or location in USA to consider for swapping...or will sell outright for

US/AU\$350,000 all inclusive. Would consider an RV or mobilehome+towing vehicle as part-payment.

Eddie De Young, AE7AE/VK4AN. ae7ae@pacific-dxers.com or yk4an@pacific-dxers.com. I have put a large number of photos of the property on one of my web sites...just ask for the link. You can also GOOGLE MAPS or other map site to see the property (albeit older shots!) 46 Bangalow St, Russell Island Queensland 4184 Australia. I will be in Australia until June 5th.

Clearing out unused items I have following to offer:
Azden PCS 3000 2m FM with mounting bracket
PK 88 w/cable for Alinco
Yaseu FT 212 RH 2m FM w/ mounting bracket and manual
PK 232
JPS NIR 12 Noise & Interference Reducer
Timewave DSP 9 Audio Noise Filter
Digitech DR 3 Digital messaging Recorder/Announcer (works??)

If interested, contact me
Bob W7TSQ

For sale:

AEA DX Handy MX28, Hand held radio
Covers 10 Meters SSB/CW QRP
It is in new condition, with original packing. \$120

Larry K7EKD, paragon73@myfrontiermail.com

I have the 4 bottom sections of Trylon Titan tower that are a bit over one year old. By adding sections you could go all the way up to 96' free-standing. They're 8-foot sections so this is about a 32-foot structure by itself. They are sections #13, 12, 11 and 10. The bottom section had the bottom 3-feet or so removed when dismantling the tower but it can be used for a short base if needed. A comparable new tower price is over \$2k plus shipping. Pick in up on Mercer Island for \$900.00 or OBO.

I started with this set up but I couldn't get a variance to go above 35 feet using this tower on Mercer Island so I ended up purchasing a US Towers MA-550 HD and was able to get my impacted neighbor's support and the variance. These tower sections are heavy duty. I can send pictures if you are interested.

Either contact me at johnbanbury@msn.com or Steve Morris--cell phone 206-890-4188 .

Cheers,

John Banbury

I'm getting ready to relocate so I need to get rid of a LOT of stuff

1. SteppIR Big IR with early 80 meter coil – boxed and ready to go - \$400
2. Two element SteppIR beam. \$400
3. DX Engineering Receive Four-Square Complete Array Package - \$750
4. Three 2500' spools of THHN cu wire, two are #14 and one is # 12 (great for radial systems). \$60 each

All of the above are in Selah. K7HC Clay Brown lemdog@charter.net

ALSO: Looking for an HDX crank up free standing tower. HDX MDPL 555, 572, or 589.

Heathkit monitor scope - Very clean, works well and in non smoking environment and mint condition. Includes original manual. Primary function is to display transmitted signals on any band 6-160 meters. (rf trapezoid, rttv cross patterns and has a 2-tone generator to adjust SSB)

\$125- (plus \$25 shipping or you pick up or I can deliver it via a WWDXC luncheon)

Bob k7lay (qth on the Kitsap peninsula near Port Orchard-tel 253-857 -5467 email K7lay@aol.com)

Cushcraft X-9 beam for sale. The X-9 is a tri-band beam covering the 20, 15, and 10 meter bands with four elements active on each band. Boom length is 28 feet. It has 9 physical elements. Asking \$500 for this antenna with pick-up in South Seattle.

The X-9 performed well but was taken down in October and replaced by a SteppIR beam to add WARC and 40-meter band capability. Contact Don Sandstrom, W7VXS at 206-550-4148 or don.sandstrom(at)mailaps.org

Looking for modern high performance transverters for 6m and 2m.

Ron Stein, W7GAX – 206-246-1915

144/440 MHz dual band glass mount mobile antenna, new in package. \$45

Contact: Don Sandstrom, W7VXS at 206-550-4148 or w7vxs@arrl.net.

Begali Sculpture paddle for sale, \$350. It's the same paddle featured in my March 2009 QST review, and has N7RR embossed on it. I'm selling it because I've converted to single-lever paddling now. My premier paddle is the Begali Sculpture Mono, which is not for sale. If you would like me to take it to the April WWDXC meeting, please let me know.

Thanks and 73, Bruce Prior 360-332-6046

FS: 1944 Vintage BC-348-R HF Receiver. 2-18 Mhz. This RX has had the dynamotor removed and has been modified for 117 AC operation. This model RX saw service in the radio position of B-17's, B-24's and B-29's during WWII. This unit is fully operational and in good cosmetic condition. Asking \$175, firm... includes bound printout of the manual and a (3rd party/Motorola) speaker. Call John, K7HV @ 206-947-0545 to set up time to check it out.

"ATAS 120A mobile antenna, with Diamond KC400C mount and ATBK-100, ground kit - all new/unused in original containers with all the parts, instructions. Designed to match FT-857(D), FT-897 D) and FT-100 series radios with one touch auto tuning. New would be \$500, I am selling for \$400. I would consider partial trade for UHF/VHF dual band gain antenna and/or DSP Speaker (like West Mountain "Clear Speech") Call John, K7HV @ 206 947-0545 or email jparnell@igc.org"

WANTED: 30' Rohn 25G + top section in good shape. Yaesu G-800SDX or equiv. Force 12 3CSS. David WA6PXX David@Giuliani.org
